# 3D Animation + Visual Effects

## Imagination Lives Here

We can make you a career-ready production artist in just one year.

The entertainment arts industry is booming, globally – and the world needs more production artists. VFS not only delivers the most current and in-demand skills in the industry, allowing you to specialize in 3D animation, modelling, or VFX, but also shows you how to take your first career steps, right away.

## One-Year Program

Time is one of today's most precious commodities. So, you don't want to spend 2 – 4 years studying for your career, when VFS can better train and prepare you in just 12 months. Our production-focused curriculum delivers a truly hands-on education that gives you the crucial experience needed to break into the industry.

## Industry Integration

VFS doesn't just teach you about the industry, it IS the industry. The 3D Animation program not only features veteran instructors and mentors recruited straight from the top studios, but also an exclusive industry night, called Fresh Meet, where students get to network and present their project reels to top industry professionals in an informal setting.

## Alumni Network + Success

Every year, VFS alumni help generate billions in global box office and sales of film, television & gaming franchises. In fact, our grads are some of the most sought-after professionals in the entertainment and creative media arts industries. And, after 30 years of training the globe's top creatives, VFS connects you to this 25,000-strong alumni network of film, TV, video game and design talents.

## World-Class Facilities

Located in the heart of beautiful downtown Vancouver, B.C., our eight state-of-the-art campuses offer lots of workshop and production spaces, green screen room, film sets, studios, screening rooms, theatres, and 24/7 access to computer labs with industry-standard software.

**"If you want the best chances of making it deep in the animation industry immediately after graduation, then going to Vancouver Film School could be the best decision of your life."**

**ANIMATION**  
CAREER REVIEW

## Program Highlights

**Term 01**

Learn the basics of a 3D pipeline to gain insight into the different areas of production.

**Term 02**

Apply your 3D skills to storytelling in our Pre-visualization class as you further advance your knowledge of the craft.

**Term 03**

Narrow your focus by choosing one of three streams: animation, modeling or VFX while you plan your final reel in the pre-production classes.

**Term 04**

Enter into the studio component of the program and start production on your demo reel alongside industry mentors who will guide you to the finish line.

**Term 05**

Work with faculty and engage in the production process as you iterate and refine your shots. One on one feedback and regular group reviews make for a true studio experience.

**Term 06**

Light, render and composite as you put the final tweaks on your project for industry night – your debut to local industry and beyond.

## Specializations

To reflect the nature of the 3D industry, students have the opportunity, during their year at VFS, to focus on one of the following areas of specialization.

**3D Animation | Modelling | Visual Effects**

## VFS 3D Animation + Visual Effects Advisory Board

**Benda Gilbert**  
President, *Bron Animation Inc.*

**Shawn Walsh**  
Visual effects executive producer,  
*Image Engine*

**Jennifer McCarron**  
President, *Atomic Cartoons*
