# Makeup Design for Film + Television

## It's Okay to Make Faces Here

We'll teach you how to break into a career in makeup design for film and TV.

Spend a year at VFS immersed in the makeup artist's world, and collaborating with students in the Film and Acting programs. Get comprehensive training in production-based makeup, from period fashion to contemporary glamour, airbrushing to injury simulations, hair-styling and beard laying to hair piece fabrication, sculpting and molding to prosthetic fabrication. Career prep is our focus!

**“I have been offered advice by all the professionals on the set - the producer, special effects, the set decorator, makeup artists, etc. - and what they told me didn't sound new at all, because I'd already been taught just about everything they mentioned while at VFS.”**

– Alice Chang  
Makeup Design for Film + Television Alumna

## One-Year Program

Time is one of today's most precious commodities. So, you don't want to spend 2 – 4 years studying for your career, when VFS can better train and prepare you in just 12 months. Our production-focused curriculum delivers a truly hands-on education that gives you the crucial experience needed to break into the industry.

## Industry Integration

VFS doesn't just teach you about the industry, it IS the industry. With veteran instructors and mentors recruited straight from the top studios in the professional world, we are able to constantly update our curriculum to keep up with an ever-evolving industry. So, students gain real-world experience even before their first day on the job.

## Alumni Network + Success

Every year, VFS alumni help generate billions in global box office and sales of film, television & gaming franchises. In fact, our grads are some of the most sought-after professionals in the entertainment and creative media arts industries. And, after 30 years of training the globe's top creatives, VFS connects you to this 25,000-strong alumni network of film, TV, video game and design talents.

## World-Class Facilities

Located in the heart of beautiful downtown Vancouver, B.C., our eight state-of-the-art campuses offer lots of workshop and production spaces, green screen room, film sets, studios, screening rooms, theatres, and 24/7 access to computer labs with industry-standard software.
